Dear Parents and Staff,

Please find attached the report from our recent Ofsted inspection.

It has been a challenging few years at Leeds Menorah School but we have never lost our belief that our school is an excellent school. We are pleased that in the latest report, Ofsted are recognising our progress according to their current inspection standards too.

We are pleased that the report acknowledges the steps that the school has been taking and the great efforts that the staff, senior leadership and governors have put in and the significant improvements that have been made. We are extremely grateful to them for all their dedication and to Rabbi Dr Yonoson Yodaiken for all his guidance.

We are keen to continue building on what has been accomplished so far and to provide a top quality secular education and authentic Jewish education in Leeds while preserving the warm and caring atmosphere that the school is best known for.

Menorah School has been an integral part of the Leeds Jewish community for over forty years, providing for those families who want a stronger Jewish education. This is especially important for attracting community leaders and clergy to the city. We are grateful for all the support the school has received and look forward to please G-d continued support in the future.

At this time we also remember the school's founder and driving figure until his untimely passing, Dayan Yehuda Refson z"l as well as our long-term Early Years Teacher Mrs Simone Karimi a"h both of whom are much missed.

Wishing you a healthy winter,

Rabbi Eli Pink  
Chair of Governors  
Leeds Menorah School
